

No System Sacrifices

Flexibility and Rich Functionality

Sierra Delivered!

WHO

PETROLEUM TRADERS
Corporation

Petroleum Traders is a leading supplier of wholesale gasoline and wholesale diesel, while also offering bulk diesel fuel, bulk gasoline, off road diesel, off road gasoline, bio diesel fuels, firm price diesel contracts, firm price gasoline contracts and full fuel inventory management solutions.

Petroleum Traders moved to Sierra for time & attendance after trying another, more expensive vendor, whose solution operation was too complicated for them and could not support all requirements.

Industry:

Energy

of Employees: 150

WHAT

Sierra System:
TIMEMASTER
SUMMIT

Clocks:

Prodigy clocks
&

Employee Self-Service

Accounting
Package:

Microsoft Dynamics GP

RESULTS

With Sierra's TimeMaster Summit, Petroleum Traders received the rich and flexible system it was looking for-at a reasonable cost. TimeMaster Summit handles all the PTO requests, tracking and specific reporting that they needed. By using TimeMaster Summit, Petroleum traders is saving over two hours a week in administrative time.

"Supervisors and employees all love the functionality..."

In addition, the data transfer with Dynamics GP using Sierra's TIA interface, integrated into one system, is much more user friendly than their old system.

Petroleum Traders made the switch to Sierra and started making time "work" for them!
