

**TIMEMASTER**

Already using KEY2ACT? Need to take your labor tracking to the next level?  
We have a great enhancement for you!

Sierra's TimeMaster-KEY2ACT integration transfers worked time, in appropriate job and service categories directly into a file for import via KEY2Act's Signature product.

Non-work time, such as sick and vacation hours are transferred directly into Dynamics GP Payroll.

Employees can enter time on a wide array of time entry devices-employee self-service kiosks, traditional time clocks, biometric time clocks or even a mobile app.

...and more!

Mobile app with GPS punch location tracking...Great for workers out in the field!

## Start Making Time “Work” for You Today!

### Integration Highlights

- KEY2ACT transaction types:
  - Job Cost Options
  - Service Code (SMS) Options
  - Unbilled
- Bi-directional transfers, preventing double entry errors
- Send employee worked time to KEY2ACT using the TimeTrack module.
- Send employee non-work transactions directly to Dynamics GP Payroll.
- Send employee information from the employee card in Dynamics GP Payroll to the time and attendance system.
- Send project information, such as jobs, service calls, cost codes and equipment, from KEY2ACT to the time and attendance system.
- Easily selectable choices in the employee time cards
- Great selection of time entry devices-including GPS punch tracking capabilities!
- Benefit from Sierra’s 30+ years of time and attendance industry knowledge
- Knowledgeable and responsive technical support team from project start and beyond...

“With Sierra’s TimeMaster and KEY2ACT you will have the tools to be able to quote jobs properly and use business analytics to your advantage.” - Mike Christiansen, Sierra Workforce Solutions
