Access Control Relay

Infrared LED Lights

Ethernet Network Port

Sierra Workforce Solution's TM810 functions as a simple to use, accurate and reliable time, attendance and access control system using face recognition technology. The TM810 provides a touch-free, hygienic alternative to fingerprint and hand readers, while still eliminating "buddy punching" and the need for cards or badges. By automating your data collection process, you can eliminate the manpower and mistakes associated with conventional time cards, thereby reducing both payroll costs and errors.

Sierra Workforce Solutions has over 25 years of industry excellence providing in-depth business requirements analysis, best practice consultation and guidance, professional implementation and training.

Put the power of automated data collection to use in your business!
