

# Microsoft Dynamics AX Payroll Integration

*Specializing in Dynamics ERP solutions that are scalable, affordable, seamless and agnostic!*

## Features

Our Sierra integration synchronizes employee and payroll data between **Microsoft Dynamics AX** and TimeMaster with just a few, simple mouse clicks.

Our standard out-of-the-box integration is bi-directional and updates employee information, including business unit, department, position and much more directly into TimeMaster directly from **Microsoft Dynamics AX** so there is no double entry. It also interfaces your TimeMaster time and attendance data including earning codes, position codes, absence codes, disbursements directly into **Microsoft Dynamics AX**, making payroll a breeze.

*See page two for more info and screen shots! ▶*

## Highlights

**Capable of supporting multi-company, each within its own database!**

### Table Data synched:

Human Resources module

- Worker table
- Party table
- Employment table
- Position Worker Assignment table

**Employee, position, and organizational information**

### Optional Features:

- Choose AX default value override for worked pay rate

### Bi Directional Interface:

- *Configure and GO! Enter data once, changes port to AX/payroll database and/or time and attendance database*

### Technical Support:

- Knowledgeable and responsive support team from project start and beyond...

Once timecards have been approved and are ready to be transferred into AX, the time data is created by launching a link in the “Payroll / Area” page.

Successful Process Notification

The time data has populated the employees' earnings statement.

In this example, the employee has worked at different rates of pay, earned overtime, and received a bonus.

Earnings date	Position	Tax region	Earning code	Description	Quantity	Unit type	Rate	Amount	Payment status
11/2/2015	000068	WA - Redmond	Regular	Regular	8.0000	Hours	17.4000	139.20	None
11/2/2015	000068	WA - Redmond	Overtime	Overtime	1.5000	Hours	26.1000	39.15	None
11/3/2015	000068	WA - Redmond	Regular	Regular	7.5000	Hours	21.0300	157.73	None
11/4/2015	000068	WA - Redmond	Regular	Regular	8.0000	Hours	19.3200	154.56	None
