

TM777/A

The TM777/A functions as a simple to use data collection point for employee information. It can be linked to a variety of existing computer networks in your organization to complement the management information systems you already have in place. The TM777/A guarantees accurate, reliable input. Employees simply enter information through the TM777/A's keypad, by swiping a magnetic stripe or bar code badge. Employee feedback is provided through audible accept/reject tones and displayed messages. By automating your data collection process, you can eliminate the manpower and mistakes associated with conventional time cards thereby reducing both payroll costs and errors.

Sierra Workforce Solutions has over 25 years of industry excellence providing in-depth business requirements analysis, best practice consultation and guidance, professional implementation and training.

Put the power of automated
data collection to use in
your business!

TM777/A

System Requirements

Memory:	128K RAM, battery backed
Card Reader:	track 1, 2 or 3 magnetic stripe reader "3 of 9", "2 of 5" or 128 bar code reader Or 26,27,32,34,36,37,42,44,48 and 86 bit proximity reader
Programming:	ASCII-based, over communication port
Communications:	Bi-directional Local Communications via RS232 port RS485LAN optional 14.4 Baud Modem optional 10/100 Ethernet

Product Specifications

Dimensions:

8.9" x 5.8" x 2.8"

Wall Mount:

yes

Shipping Weight:

5 lbs.

Power:

230/115VAC +10%, 50/60HZ, >5W

Display:

2x16 character alphanumeric,
with decimal point

Operating temperature:

-20-60:C

Humidity:

up to 95%RH

Power Backup:

internal Lithium Battery, optional
external battery backup
