

Streamlined Payroll

Increased Efficiencies

Saving Time & Money!

WHO

Evansville Regional Airport is located in southwestern Indiana and provides hundreds of domestic and international destinations each day via three major legacy airlines- American Airlines, Delta and United.

Industry:

Transportation

of Employees: 50

WHAT

Sierra System:
TIMEMASTER
SUMMIT

Clocks:

Web Clock
Interface &
Prodigy Clocks

Accounting Package:

 Microsoft Dynamics
Microsoft Dynamics GP 2013

RESULTS

“Gathering data from our paper processes was reduced from a day to only a few minutes.”

Partnering with Sierra Workforce Solutions, EVAA has taken the paper out of their payroll process. With an electronic view of timekeeping data, EVAA can schedule employees accordingly to ensure that the airport stays open and can process payroll much faster.

In addition to making scheduling easier to manage, employees have insight into their time and attendance information and are held more accountable for what they enter in the system.

Sierra’s TimeMaster Summit and TIA interface have made so much possible for EVAA. Instant, tangible ROI!
